Rationale

On November 29, 2023, Aether Industries Limited (AIL) informed the stock exchange about a fire incident at one of its facilities at Site 2 in Surat, Gujarat, causing damage to the plant and machinery, inventory and factory premises. The incident also resulted in eight casualties. While the extent of the damage to the plant and machinery and the inventory has not been estimated as of now, ICRA believes that the operations in the other two plants at Site 2 can begin shortly, moderating the impact of disruption. ICRA also notes that the facility was covered under insurance for fixed assets, inventory as well as loss of business.

The company is in the process of raising insurance claims pertaining to the loss. Any significant delay or major disallowance in the payout of the insurance claim will impact the company's liquidity profile and will remain a key rating sensitivity.

ICRA will continue to closely monitor the developments and will evaluate the impact on the business and financial profile of AIL once more clarity emerges.
